

WHITE EYE CURES SNAKE BITE

Man Who Distilled the Decoction So Testifies in Court.

HE PLEADED GUILTY TO OPERATING ILLICIT STILL

Makers of Washington County Booze Are Given Three Months in Jail.

"It's good for snake bites, I'm told," was the remark in the Federal court made Monday by Roswell DeMille, who pleaded guilty to the charge of operating an illicit distillery in Washington county, the "Dixie Land" of Utah.

Reason for Remark.

This remark was brought by inquiries of the nature and amount of "Dixie White Eye" that had been turned out by the concern. This is the product that has made Washington county famous. The information obtained by the complainant showed it to have been an insignificant affair.

Sentenced to Jail.

Inasmuch as a plea of guilty was entered and the expense of a trial was avoided, the defendants, Roswell DeMille, Jesse DeMille and Byron Miller, were given a sentence of three months in the county jail, a fine of \$100 each, and to pay the costs of the action to the extent of one-third by each.

Conspiracy Charge Set Aside.

The three were arrested last November and have since been at large. The conspiracy charge was set aside because the evidence established the concern, but it was shown that it was purchased but not erected by them.

SALT LAKE POSTOFFICE

Another Reason Why Postmaster Thomas Should Remain in Office.

Editor Tribune.—As a further reason why Postmaster Thomas should be re-appointed, I will say that I am 60 years of age and have lived in a number of countries from Washington, D. C., to the Rockies in Montana, Colorado and Utah, and have had more trouble getting my mail during the three years I have resided in Salt Lake than in all my life put together.

I am anxious to specify particularly a number of instances when my mail has gone wrong, or not received at all, and which I am certain is the fault of the postmaster here. The first instance was when I received a letter from the postmaster, his reply was very much such as we would expect from a postmaster. Finally, after many vexations, reported the matter to Washington. I received a very good reply from there, stating the trouble would be investigated. I have no doubt my complaint was referred to the postoffice inspector here and by him whitewashed.

DISTRIBUTING PAMPHLETS

See America League Sending Out Brief Information.

The See America League has just begun the distribution of pamphlets containing a brief outline of its plans and purposes. No limit to the number of pamphlets may be obtained, it being the purpose to supply every request for the information contained in them. Pamphlets are being sent to all local persons who desire to send the pamphlets to their friends. The pamphlet is not issued as large as a newspaper and can be mailed sealed for 2 cents.

The league Monday received several copies of the folder, known as "See America First," in connection with the forty-first annual convention of the National Educational association, which will be held in San Francisco early next July. On every page, save the front and back pages, the folder can be used as a "See America First." On one of the pages is found the following statement: "Never send an American look beyond his own country for the sublime and beautiful of nature's scenes."

Chief of Publicity Metcalf, who returned Monday from Pueblo, Colo., with his wife and child, received a letter from the firm of Wagnell of New York that the firm had shipped to the See America league, as a present, a copy of the "See America First" folder, and a dictionary and a stand. He also received \$50 from the Los Angeles Chamber of Commerce as a contribution to the emergency fund of the league.

MULLEN IN HARD LUCK

Discharge From the Pen Denied by U. S. Commissioner.

A discharge to Ed Mullen, a convict at the Utah penitentiary, whose term of servitude on one sentence expired Monday was denied by United States Commissioner Charles Baldwin. There was a fine of \$200 against Mullen, and as he was not able to pay it, he was not discharged. This action, however, was of but little import to Mullen, as he will be held to serve a sentence of three and a half years for jail breaking at the penitentiary over two years ago.

Hayton alleged in his complaint that he had acted in the capacity of watchman for a period of about nine years, during which time he had only been paid \$25. His prayer was for judgment for \$247.

Letter Is Sprung.

After a jury had been impaneled, a letter written by Hayton to the defendants was sprung, in which Hayton informed them that he could no longer act as watchman in return for his quarters.

An opinion was given Monday by Attorney-General Brecken in response to an inquiry as to the order of paying bounty certificates. CHEMIST HARM ON ADULTERATED FOOD

Delivers Address on Interesting Topic Before the Men's Club.

DIVIDES HIS SUBJECT INTO TWO CLASSES

Chemical Preservatives and Antiseptics, He Declares, Are Injurious.

Before the Men's Club of the First Congregational Church, State and City Chemist Herman Harms gave an interesting talk Monday night on "Food Adulterations." To an attentive and appreciative audience, he divided his subject into two classes, those adulterations that are injurious to health and those that are non-injurious. He favored the absolute abolition of the former class and the regulation of the sale of the latter class by having the consumer fully informed of the nature of the food he is buying.

Of Great Import to Public.

He stated that pure food is a matter of great import to public health and that the money spent for adulterated food is a waste. He declared that the adulteration of food is a crime and that the consumer should be fully informed of the nature of the food he is buying. He declared that the adulteration of food is a crime and that the consumer should be fully informed of the nature of the food he is buying.

What Is Adulterated Food?

A food, he said, is deemed to be adulterated when another substance has been wholly or partially substituted for it, when a valuable constituent has been wholly or partially extracted, when an imitation is sold for the genuine, when it is colored, mixed or powdered whereby its true character is lost, when it is otherwise adulterated so as to be injurious to health, or when it is otherwise adulterated so as to be injurious to health.

Preservatives and Antiseptics.

Chemical preservatives and antiseptics, he said, are not necessary for the preservation of food. He declared that the use of chemical preservatives and antiseptics is a crime and that the consumer should be fully informed of the nature of the food he is buying.

Changes of Street Names.
